## Smart glasses

### Stay focused

Glass Enterprise intuitively fits into your workflow and helps you remain engaged and focused on high value work by removing distractions.

Using voice commands, you can activate the right application for you at any time.

### Improve accuracy

Access training videos, images annotated with instructions, or quality assurance checklists that help you get the job done, safely, quickly and to a higher standard.

### Collaborate in real-time

Glass Enterprise can connect you with coworkers in an instant, bringing expertise to right where you are. Invite others to “see what you see” through a live video stream so you can collaborate and troubleshoot in real-time.

## Smart glasses

### Glass Enterprise customer success

Discover how Glass Enterprise helps businesses improve their output quality while helping employees work smarter and faster.

### Improving operational efficiency

At DHL, there is a supply chain process called "order picking" where employees fulfill customers' orders by scanning items from racks before moving them into totes or bins on carts. Using Glass Enterprise with a partner software solution from Ubimax, pickers now receive all picking instructions directly from Glass, right in their line of sight.

### DB Schenker goes hands-free

DB Schenker is a leader in supply chain management and logistics solutions, handling everything from logistics to customized shipping solutions. They use Glass Enterprise and software from Picavi to improve order-picking in their warehouses
